

Figure 6-8

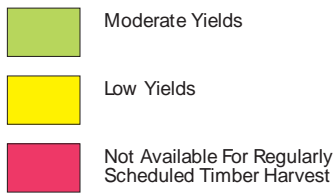

# Callahan Watershed

## Management Opportunities (8 of 8)

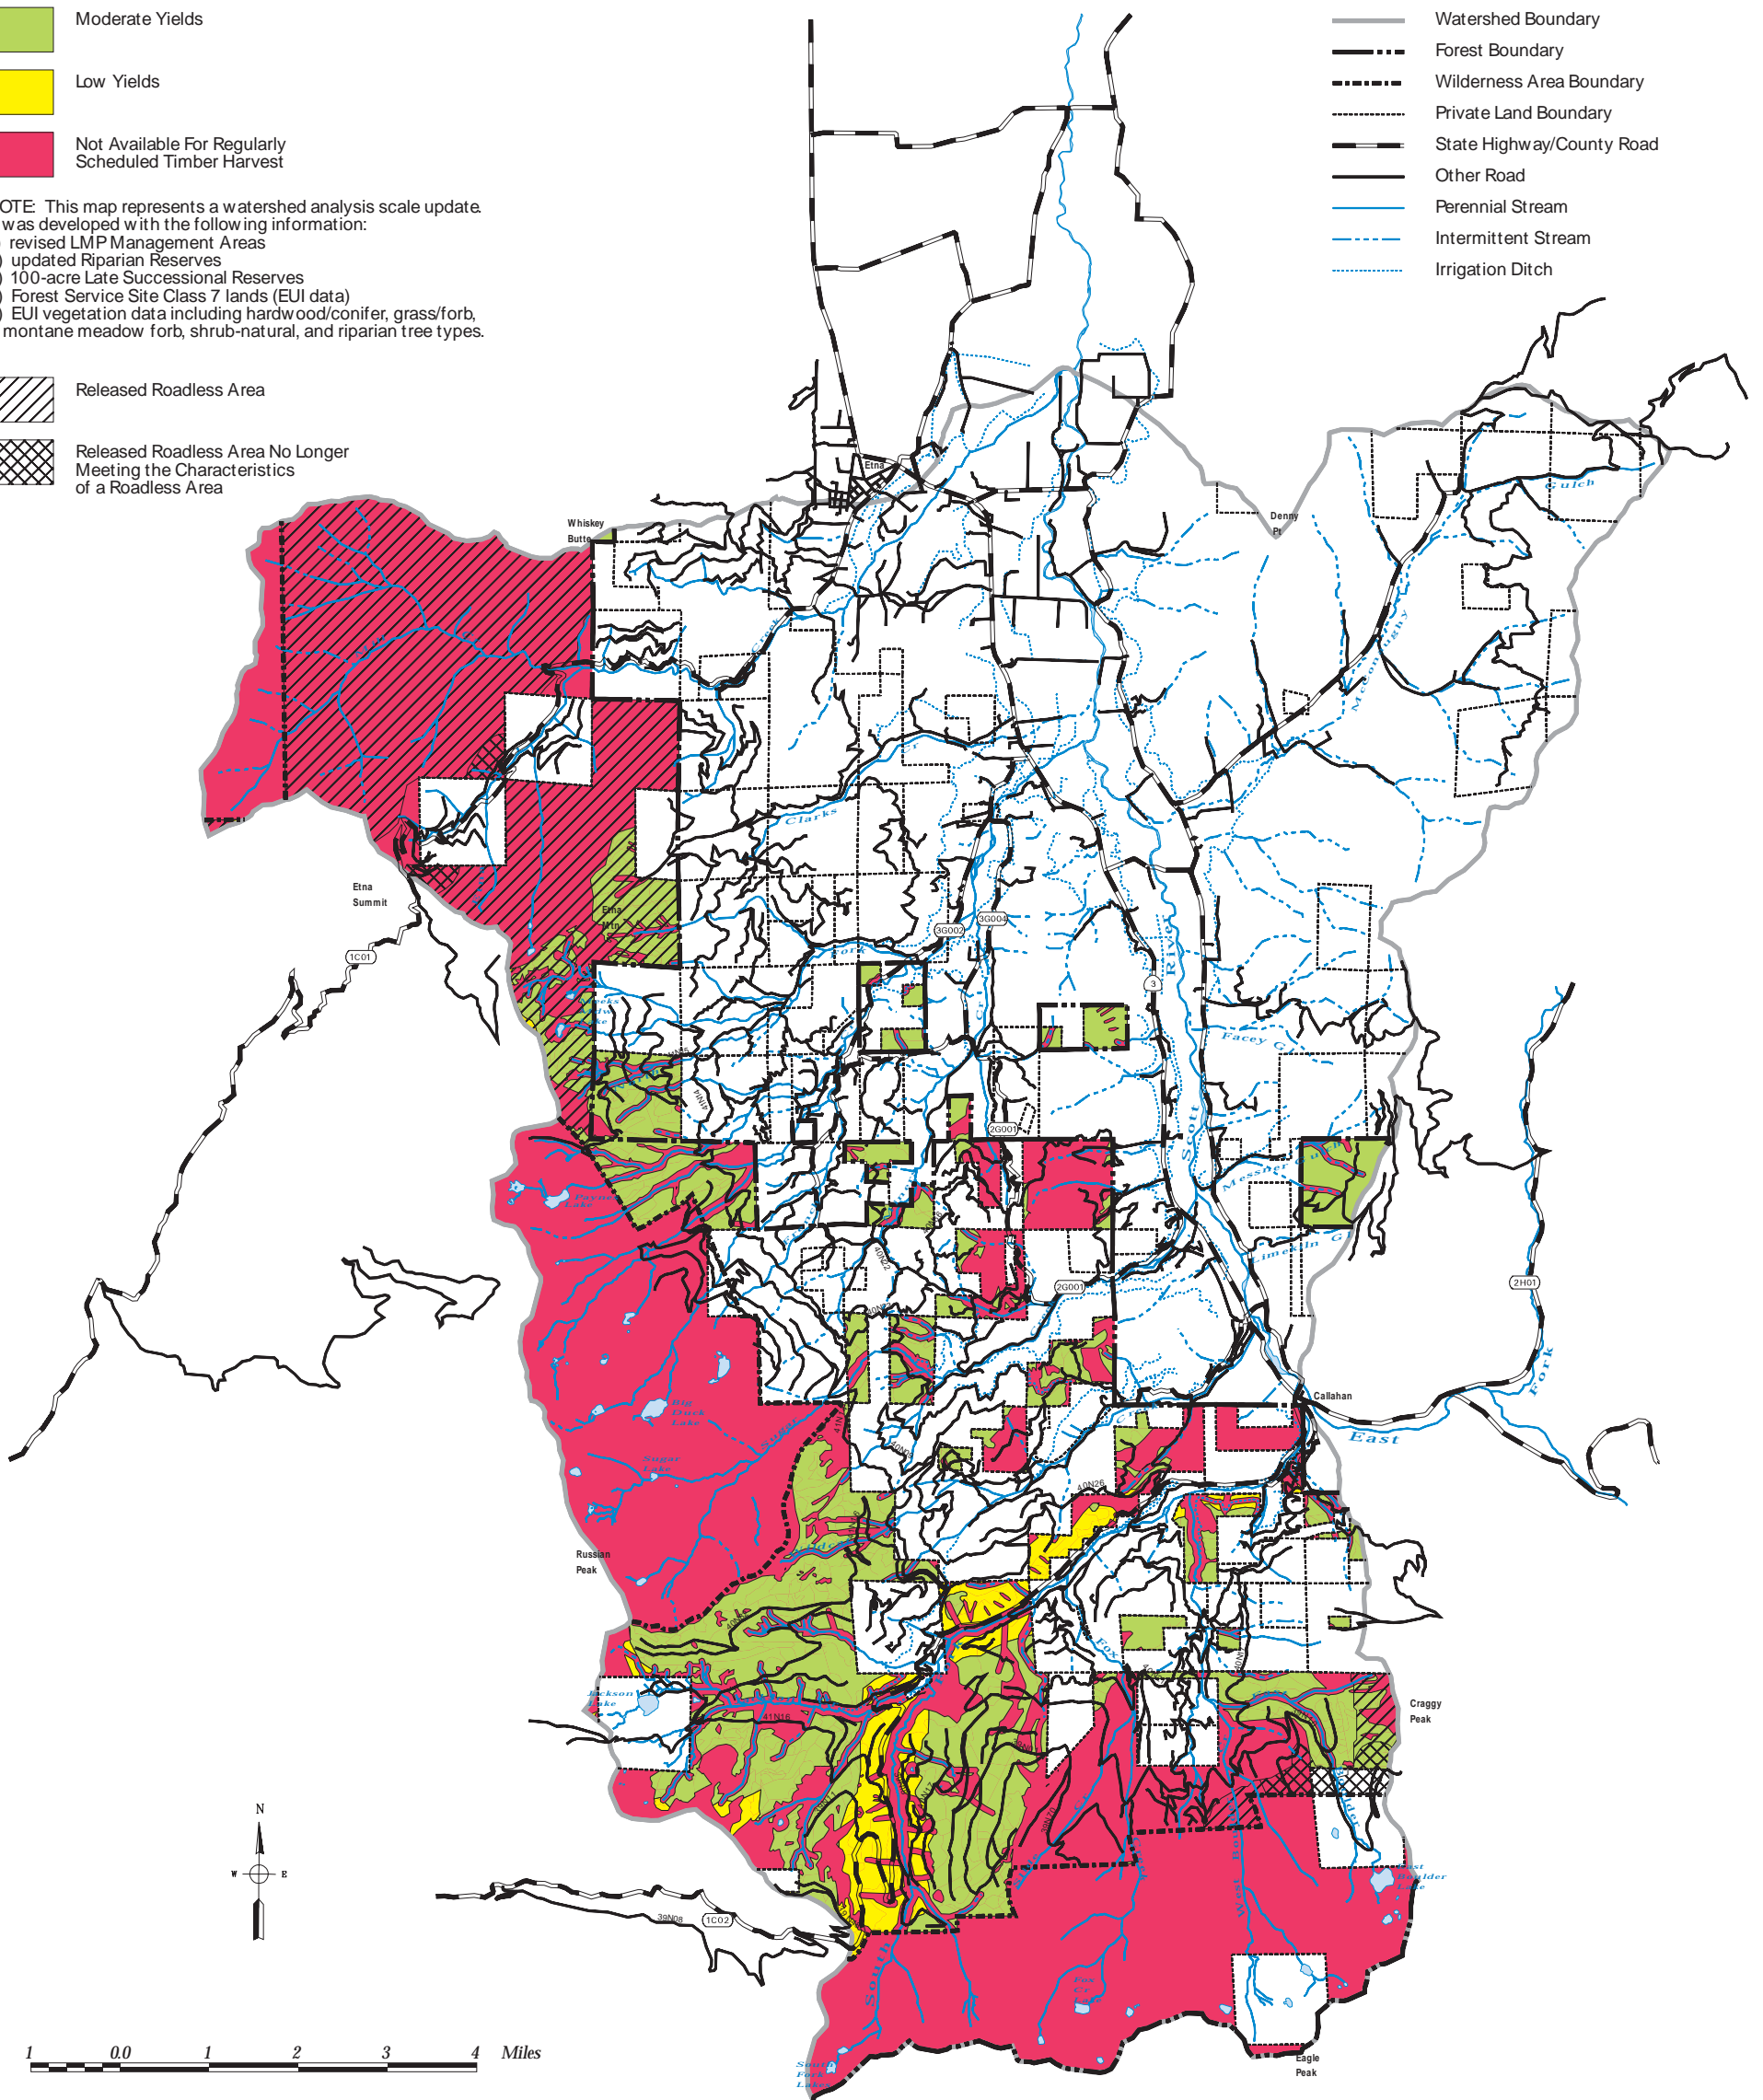

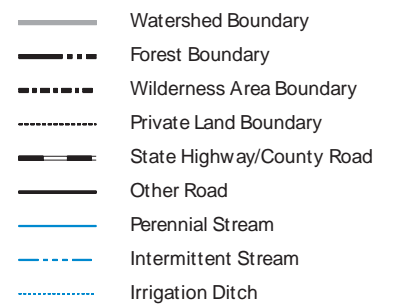

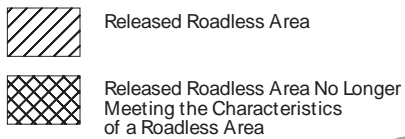

35. Develop an environmentally sustainable timber program based on site potential and management constraints.

NOTE: This map represents a watershed analysis scale update. It was developed with the following information:

- 1) revised LMP Management Areas
- 2) updated Riparian Reserves
- 3) 100-acre Late Successional Reserves
- 4) Forest Service Site Class 7 lands (EUI data)
- 5) EUI vegetation data including hardwood/conifer, grass/forb, montane meadow forb, shrub-natural, and riparian tree types.
